First in Phase I

THINK SPAULDING FIRST

TAKING YOU TO THE NEXT MILESTONE BY DELIVERING QUALITY DATA, FAST.

THINK SPAULDING FIRST

For fast, high-quality data to inform your decisions

Spaulding is uniquely equipped to dramatically reduce timelines with our rapid data delivery model with final CSR in 45 days guaranteed.

For unmatched cardiac safety

Our industry-leading team of cardiac safety experts, including **world-renowned cardiologists**, can't be matched.

With Spaulding's integrated core lab there are no shipping flash cards, no data transfers, and all ECG data collected and overread in one system. This seamless process ensures your study is executed flawlessly.

For first-class project management

Our team of experienced project managers solve your problems for you!

FULL SERVICE AND FIRST IN PHASE I

While we serve Phase I-III clinical trials in virtually all therapeutic areas, we lead the way in TQT. Our custom-built, paperless clinical pharmacology unit lies at the heart of our rigorous approach to quality and patient care.

Phase I Trial Experience

- Cardiac safety studies: World's largest telemetry site with 96 telemetry beds
- Single ascending dose (SAD)/ multiple ascending dose (MAD)
- Drug-drug interaction
- Bioequivalence/Bioavailability
- Renal/Hepatic
- Pharmacokinetics (PK)
- Pharmacodynamics (PD)
- Food Effect
- First-in-human (FIH)
- Dose selection/optimization
- Proof-of-concept
- Maximal Usage Trials (MUsT)

Spaulding Cardiac Advantage

- World-renowned cardiologists and other experts to help you identify cardiac risk early in the drug development process
- A robust cardiac safety profile to help you make confident decisions
- Flawless study execution, starting with SAD/MAD studies, using proprietary technology and processes

Patient-Centric Services, Reliable Results

- Project Management
- Site Management and Monitoring
- Study Startup
- Phase I Study Execution
- Medical Monitoring and Safety
- Expert Clinical Data Review
- Biostatistics
- Data Management
- Medical Writing

Whether you need protocol development, PK/PD data, or a database build, we'll take you to the next milestone by delivering quality data, fast.
